

## Palletizing KeyKeg 30

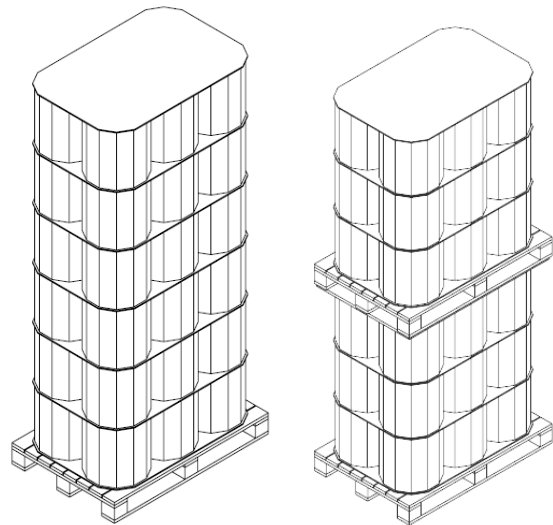

Standard palletizing of empty KeyKegs ex-works Schwerin:

- One-way Euro pallet: 1200x800.
- 5 layers, 6 KeyKegs per layer, each layer separated by 7 mm cardboard intermediate sheet incl. top/bottom sheet
- KeyKegs are stacked bottom up.
- Shrink wrapped in PE foil
- Total height: 2.35 m.

Stacking advise filled KeyKegs:

- 6 layers per pallet maximum (total height per pallet: 2.79 m).
- Maximum stacking height in warehouse: 12 layers
- Use of 7 mm cardboard intermediate sheets and top sheet
- Shrink wrap pallets and/or use straps for every layer.
- If stacking 2 pallets: use rigid wooden sheet (15 mm minimum) below second pallet or use double deck pallets to avoid damage to upper KeyKeg layer of lower pallet.

Rigid wooden sheet
